

Bailey's Court Primary School

Reception's Medium Term Planning

Summer 1—Traditional Tales

Early Years Foundation Stage Framework

As Writers, we will be exploring some traditional tales including Jack and the Beanstalk, The Gingerbread Man and The Three Little Pigs. We will continue to learn to write captions and simple sentences through Talk for Writing and Drawing Club.

As Readers, we will continue to learn to read simple sentences made up of words with known letter-sound correspondences based on our phonic knowledge. This will build our confidence in word reading and our fluency.

As Mathematicians, we will continue to engage with activities that draw attention to the purpose of counting. We will revisit the concept of cardinality—the idea that the number in the count tells us how many things there are altogether. We will develop our counting skills by organising and counting larger sets of objects.

As Designers, we will create our own gingerbread men by connecting parts together using split pins.

As Chefs, we will be baking our own gingerbread men!

As Geographers, we will look at and compare Bristol with the city of London by exploring the features within both cities.

As Musicians, we will be listening to a dynamically exciting song called *It's oh so quiet*, as well as experiencing the dynamics for ourselves with our bodies, voices and with instruments.

As Historians, we will look into the history of schools whilst exploring the similarities and differences between schools now and then.

As Artists, we will look at the life and work of one of the most influential painters—Vincent Van Gogh. We will look at his famous sunflower paintings to influence our own artwork.

As Gardeners, we will plant and grow our own beans and sunflowers.

As Scientists, we will observe the changes that happen over time with our beans and sunflowers in order to understand what vegetables and plants need to grow.

In PE, we will be preparing for Sports Day at the end of Term 5.

In Computing, we will apply the skills we have acquired to play educational games on the laptops. We will also develop our understanding of basic coding and directional language through programming the Bee-Bots.

Our theme in **PSHE** this term is 'Relationships'. We will be thinking about the relationships we have with our families and friends and how we can resolve any disagreements with greater independence.
