

Bailey's Court Primary School

Reception's Medium Term Planning

Summer 2—Amazing Animals

Early Years Foundation Stage Framework

As Writers, we will be exploring a range of fiction and Non-fiction texts in line with this terms theme 'Amazing Animals' including What the Ladybird Heard, The Very Hungry Caterpillar and Yucky Worms. We will continue to explore texts through Drawing Club and Talk for Writing, which will support our confidence when writing labels, captions and simple phonetically plausible sentences.

As Readers, we will build on our reading confidence and fluency in order to read longer sentences. We will apply this to our writing by reading back what we have written to check that it makes sense.

As Mathematicians, we will continue to develop our conceptual subitising skills by noticing smaller amounts or patterns within a bigger group and calculating mentally to find the whole. We will also begin to generalise about 'one more than' and 'one less than' numbers within 10, as well as exploring sharing and grouping and using language such as equal, unequal, fair and unfair. We will also begin to record some of our maths thinking using simple marks, symbols, numbers and pictures.

As Designers and Chefs, we will design and create our own yummy pizzas.

As Geographers, we will learn about living things and their habitats, gaining an understanding of how environmental conditions must meet an organisms needs in order for them to survive. We will also create our own maps, labelling them with symbols, words and pictures.

As Historians, we will develop an understanding of where dinosaurs are now and begin to understand that they were alive a long time ago.

As Artists, we will learn about the artist 'Henri Matisse' and recreate a piece of his artwork called 'the snail' using collage techniques.

As Scientists, we will recognise and talk about the changes that occur in Summer, as well as learn about the lifecycle of a butterfly. We will observe the entire transformation from caterpillars to adult butterflies through our very own pop-up butterfly garden habitat!

In PE, we will develop our gross motor skills, balance and co-ordination through outdoor games and the use of equipment. We will focus on how to cooperate and solve problems.

In Computing, we will learn to turn on and log in to the Chromebooks. We will use them to create simple drawings on a painting app.

Our theme in **PSHE** this term is *Managing Self - My Wellbeing*. We will learn how we can look after our wellbeing through exercise, meditation, a balanced diet and caring for ourselves. We will also be focussing on our transition to Year 1 and the emotions we may be feeling, whilst identifying strategies that will support us.
